NOGALES, ARIZ., MARCH 13.-Constitutionalists overthrew the federal garrison at Nogales, Sonora, tonight, and now are in possession of the border town, after a fight which continued with little abatement for twelve hours. Casualties are estimed at 100 dead and twice as many wounded on both sides, though accurate count has not been

Private Allen A. Umfleet, troop G, fifth cavalry, U. S. A., was seriously wounded by a rebel bullet while doing police duty near the international line here. The shot passed through his face from nose to ear. No other Americans were injured. The United States soldier was shot shortly after 5 o'clock when the attack was at its height. Lieutenant Colonel Tate, in charge of the fifth cavalry patrol, instantly sent word to General Obregon in command of rebel forces:

'You have shot one of my men. Cease firing, or I shall be after you

At the same moment the firing from the regulars under Colonels Kosterlitzky and Reyes slackened. some pre-concerted arrangement, Lieutenant Colonel Tate called his buglar and ordered him to sound the Mexican "cease firing" The federal garrison in stantly obeyed, but desultory firing continued to come from the beseig-

More than thirty wounded from either side rest in hospitals here, i while the dead dot the mesa land south of Nogales.

General Obregon gave the order for attack early this morning and the rebels remained at some distance from the town until nightfall. Three desperate attacks upon the federal soldiers were necessary to dislodge them from the defensive position. The most strenuous assault was made at 5 o'clock when constitution alists charged the federals front, left flank and rear. Wicked fighting continued for a quarter of an hour when a sudden assault was made by repel reserves upon right flank of the enemy. For half an hour together the federal soldiers resisted, but, unable to face the terrific attack from all sides they retreated to the shelter of the town, and firing from them practically ceased. It was at this time that Lieutenant Colonel Tate gave his order "cease firing." It is said that the American officer had been given orders to cross into Mexico if protection of Americans demanded such a course and give a battle to the rebels and federals after the first bugle call from the American troops' commander, Lieut-Col. Tate began assembling his men. Then the second call was given and

Meanwhile troops were rushed here from Fort Huachuca, Ariz., and tonight 600 troopers of the Fifth cavalry are on duty along the border.

Despite protests from Lieut. Colonel Tate and Consul Simpich, many bullets struck on the American side throughout the day. The renewed PAYS attack late in the afternoon did not decrease the danger to residents of the Arizona town. Three non-combatants were wounded here, while two American women had narrow escapes from injury, one bullet even piercing a woman's skirts while on

Twenty injured from both sides were brought to hospitals here, but an American physician, who braved the firing line, reported many more wounded who could not be reached without danger to the rescuers. American residents here quickly gave their services as Red Cross vol-

At 5:20 the third attempt was made to assault the federal positions. This was more successful, the defenders deserting the right front and extreme left trenches and fleeing to the cover of the town. This increasd the hot fire on the American side and when a report reached Colonel Tate that one of his troopers had been wounded he hastily assembled this men. The American Red Cross workers were refused passage through the federal lines, and the American soldiers had difficulty in clearing the streets of spectators.

SPRINGFIELD, MARCH 13 .-"Only a small part of the story has been told," declared Lieutenant Governon Barrett O'Hara, chairman of the senate "white slave" investigatbefore the Mens' Brotherhood of the First Presbyterian church in which he reviewed the work which has been done by the committee and outlined the work which the members of the committee hope to accomplish.

'Our investigators inform me, said Lieutenant Governor O'Hara. that in some establishments in the city of Chicago and in other Illinois cities, girls work ten hours a day and work hard for the miserable our commission finally reaches these conditions, I doubt not that every man and woman in the state of Illi nois, if not the entire nation will realize that the members of this commission have not been demagogues, agitators and extreme radicals: that they have not sought to stir a class feeling; but that, sanely and justly, they have sought to probe to the bottom of a condition that is a far more serious menace to the future of this nation than ever was the evil of black slavery.'

Continuing Lieutenant Governor O'Hara said: "What a splendid tribute it is to

the purity of American woman hood, what a splendid tribute to the innate, unswerving goodness of any womanhood that the choice in ninety nine cases out of one hundred is not city and in every state in the union who daily face starvation and want in its dearest aspects and never swerve from the paths chartered for them by a mother's love.

"We do insist that low wages has a great deal to do with the vice question; but the Illinois senate vice commission and the great newspapers and the high-minded public officials and the public-spirited citizens that are backing us and making possible our fight to remove all menaces from American womanhood have never reflected upon the integrity and the purity of the working girls in America. I believe and each and every member of the commission believes that our working girls are as pure and as good as any women in any class in any nation on the face of the earth, but we do know that for their virtue they make the sacrifice of want and we do know that only stout hearts and clean minds fortify them against temptation such as no other women have been called upon to face; and we do know that under these temptations some of them do fall, and I resent the insinuation that this commission is seeking to discredit the American working girl and I throw back into the teeth of the manufacturers of these insinuations the charge that every insinuation of this the working girls of America but on behalf of those responsible for the conditions that placed the American girl, as the cartoonist has pictured her standing between the two doors of 'respectability and want' and 'dis-

PASS RESOLUTION PLACING INDIRECT CENSORSHIP ON LEGISLATIVE NEWS

Resolution Proposed by Representative Lee O'Neil Browne is Quickly Adopted Under Speaker McKinley's Gavel by Viva Bocé Vote.

SPRINGFIELD ILL., MARCH 13: -An effort to intimidate newspaper correspondents and place an indirect censorship upon news eminating from the Illinois legislature marked the conclusion to day, of the tenth week General Assembly, after the house and senate again had failed to break the double senatorial deadlock. The attempt to muzzle the press for the remainder of the session was made in the house by Representative Lee O'Neill Browne of Ottawa, who succeeded, during a debate over nother resolution as a substitute for the one which had aroused debate and under Speaker McKinley's gavel the Browne resolution was adopted by a viva voce vote when there existed considerable debate as to what a roll call would have shown. In the uproar, which followed the house ing committee in an address tonight adjourned until Tuesday of next

After adjournment many members protested that they were opposed to the Browne resolution. When it was pointed out to them that no one had demanded a roll call, they asserted that the speaker declared the resolution carried under the gavel so quick ly that there was not chance.

However, unless the matter is re considered, the resolution gives the house power to bar any or all of the legislative correspondents if at any time, during the remainder of the session, any member takes exception to articles published regarding him The resolution is so worded that much latitude is given wherein to find cause for the expulsion of newspaper writer.

The fight, which resulted in the unexpected adoption of the Browne resolution, started when Representative F. E. J. Lloyd, a Progressive offered a resolution of censure of John M. Glenn of Chicago because of an editorial appearing in a publica-tion edited by Mr. Glenn. The resolution also provided for Glenn's exuntil he made an apology satisfactory to the general assembly

During the turmoil Representative

Browne made a few remarks d thousands upon thousands of shop claring he did not consider Lloyd's girls and working girls in every resolution broad enough and presented a resolution applicable to all correspondents. , Representative Lloyd objected to the Browne substitute but his protests were lost in most immediate adjournment. In discussing the effect of the Browne resolution many members tonight said that they regretted their failure to make a quick determined stand against its adoption. They said it was particularly ill-advised at this time because the eyes of the whole country are just now upon the Illinois legislature. Browne's effort to muzzle the newspapers appeared tonight to have added to the bitterness of a stiuation that is already extremely tense. A fist fight occurred after adjournment this afternoon in the en-

trance to the hall of representatives. Representative T. J. Sullivan of Chicago, Democrat, Judge Toner, also of Chicago, were the combatants. A personal debate over the long term senatorship in which Toner was said to have criticised Sullivan's vote for King, started the fight. Several lows were exchanged, before the two men were separated.

WASHINGTON, MARCH 13 .-The Democratic forces took charge of the United States senate today, elected new officers to preside over that body and paved the way for the reorganization of committees and a new control of legislative affairs. Another session of the Democratic steering committee lasting late into the evening brought the committee lists near the completion. It was expected that a Democratic caucus tomorrow would prepare all committees for presentation to the senate Saturday.

The personnel of the finance committee which is to handle all tariff bills became definitely known tonight. Persistent effort had been made for several days to induce the South Carolina senator to surrender his priority right to Senator Martin of Virginia and to take the chairmanin of naval affairs. It was stated tonight on high authority, however, that the place practically was as-

Senator Gore objected to the election of the latter, who was named by the Republicans as their confidential employe on the floor. He was re-elected with the support of a majority of the Democrats, an investigation of the whole affair was at once ordered.

Senator Gore was asked to appear tomorrow at 2 o'clock before the sen ate committee on privileges and elections and the committee will conduct a thorough investigation. Still a Mystery.

The disappearance of the Holtslaw certificate of deposit which was depended upon by those seeking to unseat Mr. Lorimer as one of their proofs of the use of money in his election, was one of the sensations of the celebrated case and mystery which never had been cleared up. Senator Gore in making his objection to Loeffler said that he believed that Mr. Loeffler had been responsible for the disappearance of the Holstlaw certificate of deposit. The paper figured prominently in the Lorimer case and was presented to the senate by Senator Bailey but could not be located afterward.

"I have a witness who I believe proves this statement of mine," said Senator Gore.

SPRINGFIELD, ILL., MARCH 13. Republican and Progressive activities to day looking to a Sherman-Funk alliance only served to tighten the Democratic lines and give Colonel Lewis the highest vote he has received in the senatorial deadlock. Col. Lewis received 91 votes to day, two more than he obtained on any previous ballot.

Seven of the 27 Progressives in the general assembly signed up to support the Sherman-Funk alliance but this number was not sufficient to secure an election and in sonsequence the two parties did not exchange votes on the long and short term ballots to day. If the Republicans pursue the plan agreed upon at the joint conference of house and senate members last night they will next week propose to make an alliance with the Democrats for breaking the deadlock. Tonight Frank H. Funk issued a

lengthy statement reciting that no party has enough votes to elect, and that a combinaon of two parties must be made the unanimous choice of the Progressives for senator and that he has received all the votes of the Progressives on practically every ballot. This choice he assumes implied the united support of our members for any honorable combination that could be with either of the old parties. Burleson Will Present Plan to Wilson for His Consideration

MAY OPEN 35,000 JOBS

Has Not Decided Whether to Ask Revocation of Taft Order for Merit Test

EFFECTS MANY POSTMASTERS

WASHINGTON, MARCH 13 .--President Wilson's advisers have hit upon solutions of two of the political problems confronting the administration which promised to be most troublesome-what kind of Democrats shall get plums from the political tree and how thousands of Democrats throughout the country can be given a fighting chance at least to get near the tree.

Within the next few days Postmaster General Burleson is expected to present for the president's consideration a plan which will open to Democrats the 35,000 third and fourth-class postmasterships covered by the civil service recently by Mr. Taft. Mr. Burleson said tonight that he had not decided whether to ask the president for a revocation of this order or not. If he decides against asking for a revocation, he will then suggest that postmasters who benefitted by the Taft order be required to take a merit test which would be open also to others. If the president took the first course thousands of postmasterships would be available at once and if he chose the other Democrats who entered the merit competition would have as good a chance as Republican incumbents.

Ever since Mr. Taft issued his famous order which with a similar one by Mr. Roosevelt put every third and fourth class postmaster in the country in the classified service, it has been subjected to vigorous criticisms by Democrats who charged that its purpose was to keep in office through Mr. Wilson's term, ber of leaders, and of the answers thousands of Republicans who were not in sympathy with the administration and who were given such protection merely to keep the Republican political machine in working order. Mr. Burleson has given the order serious consideration and any recommendation he makes to the president is likely to have much

> Mr. Burleson and Chairman Me-Combs of the Democratic national committee have settled upon a plan for patronage distribution which also will be submitted to the president shortly. It it is followed the question of whether a candidate for office is backed by "organization men" or "anti-organization men" will not figure when he is weighed for a place. The president will be advised to go upon the principle that any man who subscribes to the Democratic platform and shows his belief in Democratic principles is politically fit for office. Personal fitness of course, will be considered first, but the question of state factions or pre-convention alliances

will have little weight.

Overthrow Federal Garrison After Twelve Hours of Continuous Fighting

U. S. PRIVATE WOUNDED

Commander of Patrol Orders **Mexicansto Cease Firing After** U. S. Soldier is Shot

BOTH SIDES LOSD MANY MEN tonight.

NOGALES, ARIZ., MARCH 13 .-Constitutionalists overthrew the federal garrison at Nogales, Sonora,' tonight, and now are in possession of the border town, after a fight which continued with little abatement for twelve hours. Casualties are estimed at 100 dead and twice as many wounded on both sides, though accurate count has not been

Private Allen A. Umfleet, troop G, fifth cavalry, U. S. A., was seriously wounded by a rebel bullet while doing police duty near the international line here. The shot passed through his face from nose, No other Americans were injured. The United States soldier was shot shortly after 5 o'clock when the attack was at its height. Lieutenant Colonel Tate, in charge of the fifth cavalry patrol, instantly sent word to General Obregon in command of rebel forces:

"You have shot one of my men. Cease firing, or I shall be after you

At the same moment the firing from the regulars under Colonels Kosterlitzky and Reyes slackened. By some pre-concerted arrangement, Lieutenant Colonel Tate called his buglar and ordered him to sound the Mexican "cease firing" The federal garrison stantly obeyed, but desultory firing continued to come from the beseig-

General Obregon gave the order for attack early this morning and the rebels remained at some distance from the town until nightfall. Three desperate attacks upon the federal soldiers were necessary to dislodge them from the defensive position. The most strenuous assault was made at 5 o'clock when constitutionalists charged the federals front, left flank and rear. Wicked fighting continued for a quarter of an hour when a sudden assault was made by recel reserves upon right flank of the enemy. For half an hour together the federal soldiers resisted, but, unable to face the terrific attack from all sides they retreated to the shelter of the town, and firing from them practically ceased. It was at this time that Lieutenant Colonel Tate gave his order "cease firing." It is said that the American officer had been given orders to cross into Mexico if protection of Americans demanded such a course and give a battle to the rebels and federals alike in event they disobeyed his American troops' commander, Lieut-Col. Tate began assembling his men. Then the second call was given and obeyed.

A message from the American officer with General Obregon at the time of the first bugle call, declared upon his return, that the rebel general immediately gave orders to cease firing but that his jubilant regions now in rebellion. Orozco soldiers fired their weapons in the

International Situation.

In the most determined struggle of the present uprising in Sonora against the Huerta national government, state troops throughout today attacked Nogales, Sonora. Bullets raining on the townport of which is in Arizona, created a critical international situation which has not been equalled since the battle of Juarez two years ago. than 250 defenders, under Colonels Kosterlitzky and Reyes. Seen in the field constitutionalist Commander General Obegon remarked that the "real attack" had not come. Meanwhile troops were rushed here from Fort Huachuca, Ariz., and tonight 600 troopers of the Fifth cavalry are on duty along the border.

Despite protests from Lieut. Colonel Tate and Consul Simpich, many bullets struck on the American side throughout the day. The renewed PAYS attack late in the afternoon did not decrease the danger to residents of the Arizona town. Three non-combatants were wounded here, while Praises Purity of Majority of two American women had narrow escapes from injury, one bullet even piercing a woman's skirts while on the porch of her home.

The killed or wounded in the day's battle could not be estimated

Twenty injured from both sides were brought to hospitals here, but an American physician, who braved the firing line, reported many more wounded who could not be reached without danger to the rescuers. American residents here quickly gave their services as Red Cross vol-

Adapted For Defense.

Nogales is set in an ideal position for defense, between two ranges of hills running parallel running north and south. The state troops were compelled to move down this mountainous lane and were mowed down by the fire of the federals' rifles and machine guns. On the plain between the hills the attackers concealed themselves in shallow niches caused by the mountain freshets.

Here men dead and wounded lay in the sun without succor. Twice during the day General Obregon failed in attacks on all three of the defenders' flanks.

At 5:20 the third attempt was made to assault the federal positions. This was more successful, the to the cover of the town. This increasd the hot fire on the American side and when a report reached Colonel Tate that one of his troopers had been wounded he hastily assembled his men. The American Red Cross passage workers were refused through the federal lines, and the American soldiers had difficulty in

clearing the streets of spectators. Today's victory of the state troops here throws practically the entire portion of the insurgent border state in the hands of anti-Huerta forces. SPRINGFIELD, MARCH 13 .-'Only a small part of the story has before the Mens' Brotherhood of the week. First Presbyterian church in which he reviewed the work which has been done by the committee and outlined the work which the members of the committee hope to accomplish.

"Our investigators inform me, said Lieutenant Governor O'Hara. "that in some establishments in the city of Chicago and in other Illinois cities, girls work ten hours a day and work hard for the miserable pitiance of \$1.50 a week. And when our commission finally reaches these conditions, I doubt not that every man and woman in the state of Illinois, if not the entire nation will realize that the members of this commission have not been demafenders deserting the right front gogues, agitators and extreme radiand extreme left trenches and fleeing | cals; that they have not sought to stir a class feeling; but that, sanely and justly, they have sought to probe to the bottom of a condition that is a far more serious menace to the future of this nation than ever was the evil of black slavery.' Continuing Lieutenant Governor

O'Hara said:

"We do insist that low wages has a great deal to do with the vice question; but the Illinois senate vice commission and the great newspapers and the high-minded public officials and the public-spirited citizens that are backing us and making possible our fight to remove all menaces from American womanhood have never reflected upon the integrity and the purity of the working girls in America. I believe and each and every member of the commission believes that our working girls are as pure and as good as any women in any class in any nation on the face of the earth, but we do know that for their virtue they make the sacrifice of want and we do know that only stout hearts and clean minds fortify them against temptation such as no other women have been called upon to face; and we do know that under these temptations some of them do fall, and I resent the insinuation that this commission is seeking to discredit the American working girl and I throw back into the teeth of the manufacturers of these insinuations the charge that every insinuation of this sort has been made not on behalf of the working girls of America but on behalf of those responsible for the conditions that placed the American girl, as the cartoonist has pictured her standing between the two doors of 'respectability and want' and 'dis-

grace and food.' An indirect reply to statements made by a witness at Chicago that the investigation is acuated by a desire to aid certain newspapers in securing advertising is contained in the following words by Lieutenant American policies the effectiveness Governor O'Hara in which he praises of which rests finally upon the the newspaper for the assistance strength of the United States navy." they are giving the commission:

If ever a complete refutation of this charge was given it was during the hearing of our commission last week in the city of Chicago. The largest users of newspaper space in the city of Chicago were the witnesses called before our commission and each and everyone of the Chicago newspapers gave full space to the testimony of these large advertisers. This statement is made in common justice to the newspapers and the statement is made cheerfully and willingly."

CENSORSHIP ON LEGISLATIVE NEWS

Resolution Proposed by Representative Lee O'Neil Browne is Quickly Adopted Under Speaker McKinley's Gavel by Viva Bocé Vote.

SPRINGFIELD ILL., MARCH 13: -An effort to intimidate newspaper orrespondents and place an indirect OBJECT TO LOEFFER censorship upon news eminating from the Illinois legislature marked the conclusion to day, of the tenth week of the sessions of the Forty-Eighth General Assembly, after the house and senate again had failed to break the double senatorial deadlock. The attempt to muzzle the press for the remainder of the session was made in the house by Representative Lee O'Neill Browne of Ottawa, who succeeded, during a debate over nother resolution as a substitute for, the one which had aroused debate and under Speaker McKinley's gavel the Browne resolution was adopted by a viva voce vote when there existbeen told," declared Lieutenant Gov- ed considerable debate as to what ernon Barrett O'Hara, chairman of a roll call would have shown. After adjournment many members protested that they were opposed to the Browne resolution. When it was pointed out to them that no one had demanded a roll call, they asserted that the speaker declared the resolution carried under the gavel so quickly that there was not chance.

Can Bar Correspondents.

However, unless the matter is re considered, the resolution gives the house power to bar any or all of the legislative correspondents if at any time, during the remainder of the session, any member takes exception to articles published regarding him. The resolution is so worded that much latitude is given wherein to find cause for the expulsion of newsgaper writer.

The fight, which resulted in unexpected adoption of the Browne resolution, started when Representative F. E. J. Lloyd, a Progressive offered a resolution of censure of John M. Glenn of Chicago because of an editorial appearing in a publica-tion edited by Mr. Glenn. The resolution also provided for Glenn's exlusion from the lobby of the state until he made an apology satisfactory to the general assembly

Many Regret Adoption. Some members opposed the resolution others proposed that it be referred to various committees. During the turmoil Repre

Browne made thousands upon thousands of shop claring he did not consider Lloyd's resolution broad enough and presented a resolution applicable to all Representative in its dearest aspects and never Lloyd objected to the Browne substitute but his protests were lost in the noise of the quick vote and almost immediate adjournment. In discussing the effect of the Browne resolution many members tonight said that they regretted their failure to make a quick determined stand against its adoption. They said it was particularly ill-advised at this time because the eyes of the whole country are just now upon the Illinois legislature. Browne's effort to muzzle the newspapers appeared tonight to have added to the bitterness of a stiuation that is already extremely tense. A fist fight occurred after adjournment this afternoon in the en-

trance to the hall of representatives. Representative T. J. Sullivan of Chicago, Democrat, Judge Toner, al so of Chicago, were the combatants. A personal debate over the long term senatorship in which Toner was said to have criticised Sullivan's vote for King, started the fight. Several blows were exchanged, before the two men were separated

Senator Gore Starts Investigation of Disappearance of Holstslaw Certifcate of Deposit

SAYS LOEFFLER TOOK PAPER

WASHINGTON, MARCH 13 .-The Democratic forces took charge of the United States senate today elected new officers to preside over that body and paved the way for the reorganization of committees and a new control of legislative affairs. Another session of the Democratic steering committee lasting late into the evening brought the committee lists near the completion. It was expected that a Democratic caucus tomorrow would prepare all committees for presentation to the senate Saturday.

The personnel of the finance committee which is to handle all tariff bills became definitely known tonight. As now agreed upon it is: Democrats - Chairman, Senator Simmons, North Carolina; Senator Stone, Missouri, Williams Mississippi, Johnson, Maine, Shivley, Indiana, Gore, Oklahoma, Thomas, Colorado, James, Kentucky, Hughes New Jersey.

Information late in the day indicated also that Senator Tillman had won his personal fight to secure the chairmanship of the appropriations committee, the second most powerful of the senate.

Persistent effort had been made Carolina senator to surrender his priority right to Senator Martin of and to take the chairmanship of naval affairs. It was stated tonight on high authority, however, that the place practically was assured to Senator Tillman.

Other important committee chairmanships were settled during the day. Senator Owen has been selected for the chairmanship of the banking and currency committee which will handle all currency reform legislation. Senator O'Gorman probab'y will be made chairman of the committee on interoceanic canals.

Objects to Loeffler.

Senator Gore objected to the election of the latter, who was named by the Republicans as their confidential employe on the floor. He declared a senate page had told him that Mr. Loeffler was responsible for the disappearance of the so-called Halts law certificate of deposit which figured prominently in the first trial of Senator William Lorimer. publicans warmly defended their sole employe and declared charge was a 'gross injustice' to Mr Loeffler. He was re-elected with the support of a majority of the Democrats, an investigation of the whole

affair was at once ordered. Senator Gore was asked to appear tomorrow at 2 o'clock before the sen ate committee on privileges and elections and the committee will conduct a thorough investigation.

Still a Mystery. The disappearance of the Holtslaw certificate of deposit which was depended upon by those seeking to unseat Mr. Lorimer as one of their proofs of the use of money in his election, was one of the sensations of the celebrated case and mystery which never had been cleared up. Senator Gore in making his ob

PLAN TO AFFORD DEMOCRATS PLACES

Burleson Will Present Plan to Wilson for His Consideration

Has Not Decided Whether to Ask Revocation of Taft Order for Merit Test

EFFECTS MANY POSTMASTERS

WASHINGTON, MARCH 13 .-President Wilson's advisers have hit upon solutions of two of the political problems confronting the administration which promised to be most troublesome-what kind of Democrats shall get plums from the political tree and how thousands of Democrats throughout the country can be given a fighting chance at least to get near the tree.

Within the next few days Postmaster General Burleson is expected to present for the president's consideration a plan which will open to Democrats the 35,000 third and fourth-class postmasterships covered by the civil service recently by Mr. Taft. Mr. Burleson said tonight that he had not decided whether to ask the president for a revocation of this order or not. If he decides against asking for a revocation, he will then suggest that postmasters who benefitted by the Taft order be required to take a merit test which would be open also to others. If the president took the first course thousands of postmasterships would be available at once and if he chose the other Democrats who entered the merit competition would have as good a chance as Republi-

can incumbents. Ever since Mr. Taft issued his famous order which with a similar one by Mr. Roosevelt put every third and fourth class postmaster in the country in the classified service, it has been subjected to vigorous thousands of Republicans who were not in sympathy with the administration and who were given such protection merely to keep the Republican political machine in working order. Mr. Burleson has given the order serious consideration and any recommendation he makes 20 the president is likely to have much

weight.

Mr. Burleson and Chairman Mc-Combs of the Democratic national committee have settled upon a plan for patronage distribution which also will be submitted to the president shortly. It it is followed the question of whether a candidate for office is backed by "organization men" or "anti-organization men" will not figure when he is weighed for a place. The president will be advised to go upon the principle that any man who subscribes to the Democratic platform and shows his belief in Democratic principles is politically fit for office. Personal fitness of course, will be considered first, but the question of state factions or pre-convention alliances will have little weight.

WOULD HAVE JACKSONVILLE ON NATIONAL THOROUGHFARE

Transcontinental Highway Would Take in Number of Important Cities of Illinois.

If the transcontinental route comes to a fruition, Jacksonville is to be one of the Illinois cities which will be included on the thoroughfare. P. H. Daly of Kansas City, is a visitor in the city, who represents a Kansas City company that is deeply interested in the road and he expects to be here several days locking up data and other 'aformation. Much enthusiasm about the proposed route has been aroused by Judge Lowe of Kansas City. Through historical research he has dug up the old trails followed by the pioneers and the advance guards of civilization in the early days of the forty-niners and "Pike's Peak or Bust" emigrants. The route practically belts across the United States, through historic scenery and a temperate climate. The route is a comparatively even grade, through Kansas till it reaches the foothills of Colorado and the highest point is only 6,000 feet high at Trinidad, Colo. It is possible for the excursionist to leave one of the nineteen original states and go along this route in Indian summer, both the coming and going being the best time of the year.

Mr. Daly in speaking of the route last night said: "In a general way and from its historic associations and scenic beauty it is the cross continent route par excellence. Some of the states may have corrections to make of an eminently practical nature conforming to two things directness and nature of the country through which a national highway should pass.." Mr. Daly is of the opinion that the traveler would find the trail along the Missouri route very rough in spots and that is the reason the north cross state highway is prefered also that cities and follow a natural plateau. In speaking further of the subject

Mr. Daly said: "Another question suggests itself to the Illinoisan, if the government built a national pike modern capital? Jacksonville was originally settled by emigrants who used the Ohio to Cairo and St. Louis and the Illinois river at Valley City or Beardstown, so that both river and national pike have played an equal part in colonization. The building of the ocean to ocean road therefore through its old Illinois marking would be suicidal as the route from Indianapolis to Springfield would pierce the world's richest cornbelt and connect a chain of fine cities, including Decatur, Springfield and Jacksonville.

"It is not generally known that one of the bank windows contains sections (not divisions) of the first railroad west of the Alleganies. This road passing through Jacksonville's public square. If we are picking up pioneer trail relics, Jacksonville is rich in this respect. Deference and a wagon bridge at Valley City

NEW YORK YACHT CLUB

Sends Reply to Sir Thomas Lipton

New York, March 13 .- The New York Yacht club "would have accepted with pleasure an unconditional challenge for the cup similar to those which it has received in the past from Royal Ulster Yacht club and which have resulted in the three series of matches for the cup tween our respective clubs."

This is perhaps the most striking sentence in the raply of the New York Yacht club, declining Sir Thomas Lipton's challenge for a series of races for the American cup in 1914. The reply emphasizes the unwillingness of the New York Yacht club to accept a challenge which deprives the club of its right to select under the broad limits of the deed of gift a yacht of such type as it considers a fit defender of the

famous trophy. The club's objection was centered upon Sir Thomas' requirement that the cup be defended by a yacht with a length on the load water line of not more than 75 feet, contrary to the terms of the deed of gift which allows a length of from 65 to 90 feet. The reply carries the resolutions passed at last night's meeting setting forth that in declining a challenge by the Royal Yacht club for Sir Thomas Lipton in 1907 the defending club passed resolutions determining among other things that: While the defending club cannot require that the challenge vessel by any given size, so long as she is within the limits permitted by the deed of gift, it should not consent to any limitation upon the power or size of the defending vessel other than such as is imposed by the deed.

CHARLES GILPIN KILLED IN STORM

ON HOUSE TREE BLOWN CRUSHES FARMER.

Was Closing Door of Home When Accident Occurred-Dies From Injuries Three Hours Later-Wind Storm Does Heavy Damage.

In the storm which struck Jack-sonville about 7 o'clock Thursday evening, Charles Gilpin, a farmer residing on the Duer farm near Pisgah, was crushed under a tree which fell on his house, and received injuries from which he died about three hours later.

The door of the kitchen of Mr. Gilpin's house blew open and when he went to close it, a large black oak tree that stood near the house was blown over on the kitchen, catching Mr. Gilpin, fracturing his skull and several ribs and also his back. The rear end of the house was wrecked and the man was pinioned under the wreckage until released by a number of neighbors.

To release the injured man it was necessary to cut the flooring around his body and let him down to the ground beneath the floor. This was done by Michael Ausmus, Mr. Wight and Mr. Waters, and they then took the man out from under the building. Dr. J. M. Elder of Franklin was called, and a north-bound Burlington freight that happened to be in Franklin at the time was held for the doctor, who gave the injured man every attention, in the hope of saving his life. Dr. T. O. Hardesty was called from this city, but Mr. Gilpin's injuries proved fatal and he died at 11 o'clock last

Mrs. Gilpin, who was in another part of the house at the time of the accident, escaped injury, and when she heard the crash and saw her husband a prisoner in the wreckage, she called the neighbors to her assistance.

Coroner George W. Wright was notified of the death and went to Pisgah Thursday night to empannel a jury and make arrangements for holding an inquest.

Mr. Gilpin was 37 years of age and was a man held in high esteem by his neighbors and a wide circle friends, having the reputation of a hard working and industrious farmer. He was reared in Morgan county and was working on the Duer farm, which is rented by William Masters. Arrangements for the funeral have not been made.

Local Storm Damage. Coming from a little west of south, a severe wind storm struck Jacksonville amout 7 o'clock Thursday night, resulting in quite a number of trees being broken, several signs being blown down and some windows brok-

For perhaps ten minutes a blinding rain fell and the wind came so quickly that many were caught before they had time to seek shelter. James Scott of 1005 North Fayette EXPLAINS REFUSAL TO RACE street was walking along West State street, just west of the court house, when the storm struck, and his hat and umbrella were carried away into Declining Challenge For Series of the darkness with the first gust of wind. Several telephone and telegraph lines were torn down by falling limbs and at the local Burlington station trains were being moved with only one wire on which to rereceive orders.

Heavy Damage at Pisgah. The heaviest part of the storm seemed to have passed east of Jacksonville, as Pisgah was struck with a much forceful wind, fences being torn down, outhouses damaged and the top of a box car on a northbound Burlington freight was blown into A. A. Curry's field. Nearly all of the telephones were put out of order at this place.

Wind Travels at Great Speed. An idea of the speed with which the storm traveled can be gained from the fact that it struck White Hall about 6:30 o'clock, Jacksonville at 7 o'clock and had hit Bloomington at 8 o'clock Thursday night.

At White Hall two barns, an old skating rink, several outbuildings, trees, telephone wires and other property was damaged and two men were considerably bruised after encounters in the storm. Frank Ross was blown from the sidewalk to the side of a house, a distance of twenty feet, and William Patterson, who was walking along the street in the business section of the town, was thrown to the pavement and rolled distance of thirty feet. Both of the men received some painful bruises but escaped serious injury. Literberry and Alexander Escape.

At Literberry and Alexander slight wind was experienced but no At Newmanville damage resulted. room was blown off a house, outouildings and other property were damaged. All of the telephone lines were torn down and last night it was impossible to get into communication with the town to learn the exact condition of affairs.

THE ART OF CORRECT DRESS

Corsetry---a Modern Science

No. 1 in a series of talks on the Ways and Means of Attaining Correctness in Dress

I Corseting has developed to such and extent with in the last few years it may now well be classed as a science. A perfect fitting corset imparts that chic, graceful appearance to the outer garment which characterizes a woman as being well groomed-and the ill-fitting corset necessarily the opposite. Those who are exacting in their dress requirements choose the corest first in the season's out-fit, and have all fitting done over this model. This is secret No. 1 in the art of correct dressif you choose the right corset.

Makers of the American Lady Corset are noted for the exactness they have acquired in corseting. "A correct model for every figure" is their claim which means "a perfect fitting outer garment for every wearer of American Lady Corsets". We have a complete line of this celebrated make and are awaiting an opportunity demonstrate to you their many superior points. Begin the season right this year. Buy an American Lady Corset first - and read the articles on The Art of CorrectDress as they appear from time to time.

Under our present system, in Morgan county, with each board of road commissioners an independent body, what have we to show for fifty years of work and the expenditure of hundreds of thousands of dollars? There has been no dishonesty. The money has simply been frittered away by a lack of system. Each district was independent, each acted for itself, without regard to the other. Each had their own pet schemes. direction. A short time ago, in one of the banks of the city, a number of farmer experts were examining samples of clover seed. With the naked eye one of the gentlemen, Mr. Ed Brown, was able to separate a large proportion of weed seeds from the small package of clover. The weed seeds meant that not only was the farmer raying a high price for the seed purchased, but he was planting on his land weeds that were a great detriment. Professor Pammel, of Ames, has published a statement that the farmers of Iowa are losing in the aggregate \$25,000,000 a year through the planting of seed grains containing noxious weeds and incomplete mowing along road-sides." This seems a very large amount, but perhaps the professor knows what he is talking about. The advent of President and Mrs. Wilson and their three "bachelor" daughters has naturaly aroused Washington society to speculation as to the possibility of more white house weddings during the administration

The first white house wedding took place a little more than a century ago, when Mrs. Madison's youngest sister, Lucy Payne Washington, widow of a nephew of George Washington was the bride.

During President Jackson's administration three weddings took place in the historic mansion, those of Delia Lewis of Nashville, and Alphonse Pageot, a member of the French legation; Mary Easton, a niece of Mrs. Jackson, and Lucien B. Polk, and Emily Martin, a relative of the presi-

dent, and Lewis Randolph. The next white house wedidng was that of Elizabeth Tyler daughter of President Tyler, and William Waller, of Virginia. The next was the famous wedding of Nellie Grant and Algernon Sartoris.

The white house weddings of late place, were those of Emily Platt, a niece of President Hayes, and Gen Russell Hastings; Miss Frances Folem and President Cleveland and Miss Alice Roosevelt and Nicholas Long-

To Farmers and Stock Raisers

We are now manufacturing under State License, the best Brand of hog food on market known as "SURE FATTEN HOG FOOD" It is far superior to any Brand of Hog food on the market to day. It is guaranteed under the Pure Food and Drugs Act, June 30th, 1906, Serial No. 47,673. Guaranteed analysis as follows:

Crude Fat..... 10.00 to 14 per cent Crude Protein . . 52.50 to 60 per cent Crude Fibre 1.00 to 3 per cent Phosphate 10.00 to 12 per cent

What Is "Sure Fatten Hog Food"

It is a dark colored granular meal, made from meat residues, and it supplies the protein and phosphates necessary for compounding a balanced ration in most economica! and palatable form. It contains phosphates in proper proportion to insure strength of bone and frame work. In the corn belt bone development is a matter of serious consideration.

It is not a substitute for corn, but a small quantity fed in connection with corn or other grains gives a balanced ration.

It is the most economical source of digestible protein known, containing twice as much protein as oil meal and five times as much as middlings, shorts, shipstuff, or alfalfa meal. recommended by all leading experiment sta-

It is packed in one-hundred-pound burlap sack, plainly mark-SURE FATTEN HOG FOOD," analysis as above. It is the ideal feed to balance rations.

What "Sure Fatten Hog Food" Tankage Does.

It developes bone and muscle in young pigs and makes them grow. It matures a hog for market in two and three months quicker than corn alone, thereby, saving one third of the feed bill, one third of the labor, one third of the risk, increasing profits one

It grows beter proportioned hogs, more meat, a d more fat, hence market-topper hogs. SURE FATTEN HOG FOOD TANK-AGE fed hogs ship well with small shrink, While in nowise a medicine, it so fortifies and strengthens the

system against attacks of disease germs that SURE FATTEN HOG FOOD TANKAGE fed hogs are universally healthy hogs.

ASKS RECEIVER FOR INTERNATIONAL SECURITIES COMPANY OF AMERICA

and Missappropriation of Funds.

Grand Forks, N. D., March 15 .-Charging gross mismanagement and tal recovering from an operation for missappropriation of funds, Andrew appendicitis. Miller, attorney general of North Dakota has made application for the appointment of a receiver and the dissolution of the International Securities company of America whose headquarters are in this city. It is alleged in the complaint that mismanagement and fraud have characterized the affairs of the company, it being claimed that although the company is capitalized at \$100,000, stock to the extent of \$226,000, has been sold. It is also alleged that while the par value of the stock is \$10 a share, most of it has been sold a prices ranging from \$15 to \$25 a share, and that E. Sandlie, general manager of the company has received more than

\$60,000 in commissions. It is also maintained by Mr. Miller that the company has engaged in the sale of a form of investment contract similar to an endowment insurance policy, which he says is not in the charter of the organization.

BYAN'S ALLEGED ASSAILANT ON TRIAL. Indianapolis, March 13 .- After a

delay of more than a year Detective Robert J. Foster was placed on trial today on charge of assaulting Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers. Foster was a detective in the employ of the National Erectors' association. On January 27, 1912, he is alleged to have entered Ryan's office and the latter is said to have ordered him out. In the dispute Foster is afleged to have struck Ryan. At the time of the alleged occurrance the federal grand jury was investigating the charges against Ryan and other officials of the union in what has become known as the "dynamite conspiracy" case. The investigation resulted in the indictment and conviction of Ryan, who is now out on bond pending the settlement of his appeal.

RHEUMATIC PAINS GO **SWOLLEN JOINTS VANISH**

Rheumatism, Gout and Sciatica Only 50 Cents and Money Back From Coover & Shreve—If It Doesn't Satisfy.

Thousands of people during the last year freed themselves from the bondage of rheumatism; rid themselves of the torturing pain; reducced the swollen joints; threw away canes and crutches, and from helpless beinge became able to work and be of use to themselves and their families.

They took RHEUMA; the modern enemy of rheumatism, which is also sure to cure lumbago, sciatica, arthritis, gout, chronic neuralgia or kidney disease.

Don't be skeptical about RHEUMA. You will know in a few hours after beginning the treatment that the poisonous uric acid is leaving your system through the natural channels. You will feel better in a day you will know you are going to be cured in less than a week.

Don't think because RHEUMA is sold for only 50 cents a bottle that it won't bring you back to health. There is no guess work about it. RHEUMA is better than any remedy at ten times the price. Ask Coover

EDISON'S LATEST INVEN

IS ON DISPLAY AT

Brady Brothers

The new Disc Phonographs and new Indestructible Disc Records are here. If you are thinking of buying a Phonograph or Talking Machine, be sure to see and hear this marvelous instrument before you take another step

It was not by accident that Mr. Edison discovered the secret of recording and reproducing the overtones or tone colors of music. It is this discovery which makes the Edison Disc Phonograph a musical instrument and distinguishes it from talking machines. To accomplish this Mr. Edison has spent an amount of money which would stagger any manufacturer of talking machines. He has spent years of his time--- and his time is admitted to be the more valuable than that of any other man---in pursuit of ideals which are realized in the Edison Disc Phonograph.

We want to mention just a few Advantages this Invention holds over all other Phonographs or Talking Machines.

The Edison Disc Phonograph is not a talking machine. It is an instrument that truly reproduces music with the overtones or tone colors. It is the greatest musical instrument in the world. It requires no bothersome changing of needles. Instead, it has a permanent, genuine diamond to take their place.

The records will positively not wear out. All other Discs wear out very quickly. Edison uses a new material. Edison's records play almost twice as long as any other disc records.

Edison will have artists that will not sing or play for other competitive companies.

The tone quality is positively the clearest, most natural tone ever produced in a sound producing instrument. There are other important advantages to numerous to mention here.

For over six years Mr. Edison, the wizard and master mind, has been working on this invention and we are now in position to let the public hear and see what he has achieved.

All are welcome. Call and let us show you all about it and hear for the first time the Instrument that plays real music.

SCARES IN LONDON

When Cranks Predicted the Destruction of the City.

TERROR RULED THE PEOPLE.

Bell, a Lunatic, Had the Entire Population In a Frenzy of Fear Awaiting River Thames Panic of 1524.

Men, it has been well said, think in mad in herds, for innumerable instances can be given of a whole people suddenly shaking off the trammels of including newspapers, periodicals, famed tonics.

A panic terror of the end of the world spread over London in 1736 by the prophesy of the famous Whiston, who predicted that the world would be destroyed on Oct. 13 in that year. or eleven pounds. Crowds of people went out on the appointed day to Islington, Highgate, Hampstead and the intervening fields

Again in the year 1761 the citizens of London were plunged into excitement by two earthquake shocks, and the prophecy of a third, which was to destroy them altogether. The first of these shocks was on Feb. 8 and threw down several chimneys; the second was on March 8. Public notice was directed to the fact that there was exactly a month's interval between the two shocks, and a crack brained fellow named Bell was so impressed with the idea that there would be a third in the forthcoming month that he completely lost his senses and ran about the streets predicting the destruction of London on April 5.

As the awful day approached the excitement became intense, and great numbers of credulous people resorted to all the villages within a circuit of twenty miles, there to await the doom of London, Blackheath, Islington, Highgate. Hampstead and Harrow were crowded with panic stricken fugitives who paid exorbitant prices for accommodations in these secure retreats. Such as could not afford to pay to-date Carpet Cleaning equipment in | for lodgings at these places encamped

in the surrounding fields. As is usual in panics, the fear became contagious, and hundreds who had laughed at the prediction a week before packed up their goods and chattels when they saw others doing so and hastened away. The river was thought to be a place of great security, and accordingly all the available merchant vessels and barges were packed with people, who passed the night between the 4th and 5th on board, expecting every moment to see St. Paul's totter and the towers of Westminster abbey rock and fall amid a cloud of dust. But on the following day the greater part of the fugitives returned. convinced that the prophecy was a false one. A few months afterward Bell was confined in a lunatic asylum,

Great consternation was caused in London in 1524 by a prediction that on the 1st day of February the waters of the Thames would overflow the whole city of London and wash away 10,000 houses. The prophecy was implicitly believed, and many families packed up their goods and removed into Kent and Essex. As the time drew near the numbers of these emigrants increased. In January droves of workmen might be seen, followed by their wives and children, trudging on foot to the villages within fifteen or twenty miles to await the catastrophe. People of a higher class were also to be seen in vehicles bound on a similar errand.

By the middle of January at least 20,000 persons had quitted the doomed city, leaving nothing but the bare walls of their homes to be swept away by the impending floods. Many of the wealthier class took up their abode on the heights of Hampstead. Highgate and Blackheath, and some erected tents as far away as Waltham abbey on the north and Croydon on the south of the

On the fateful morning the wondering crowds were astir at an early hour to watch the rising of the waters. It was predicted that the inundation would be gradual, not sudden, so that they expected to have plenty of time to escape as soon as they saw the waters rise beyond the usual mark.

The day grew older, and the Thames flowed on quietly as of yore. The tide There is a wealth of instruction and ebbed at its usual hour, flowed to its usual height and then ebbed again, just as if twenty astrologers had not pledged their word to the contrary.

> Blank were their faces as evening approached, and as blank grew the faces of the citizens to think that they had made such fools of themselves. Night set in, and the obstinate river would not lift its waters to sweep away even one bome out of the 10. 000. Still, however, the people were afraid to go to sleep. Many hun dreds remained up till dawn of the next day, lest the deluge should come upon them like a thief in the night.

On the morrow it was seriously discussed whether it would not be advisable to duck the false prophets in the river. Luckily for them they thought of an expedient which allayed the popular fury. They asserted that by an error they had fixed the date of be washed away, not in 1524, but in 1624 - London Family Herald.

Exchange and Employment Agency.

The growth and development of the business has been most gratifying, considering the short time it has been established. There have, been some considerable deals put through by the management of this office in a very satisfactory manner, and while there is not a great volume of property listed with this office, the class of property is of fairly good average both as to farms and city property, and the essential part is that the owners of listed property want to sell it, and have it priced at a fair figure.

We give every item personal attention, and without delay. We now have loans that can be had at 5 per cent and 6 per cent on good security with privileges to borrower.

We have live stock listed for sale, and have orders to fill. We are placing both men and women in good paying positions. Our patrons will tell you what we want you to know. Call on us for information, and let us add our effort to yours to make your business go as you would have it.

Are You Subject to Constipation?

Here is a Simple Way of Correcting it Instantly Before it Becomes Chronic.

Very few people go through life without some time or other being troubled with constipation. He declared it the will appear before the county court duty of the party to formulate pub- of Morgan county, at the court house lic opinion and that it should be in Jacksonville, at the May term, strengthened by means of organiza-

Colonel Roosevelt said in part: "The Progressive party has been founded primarily to render social and industrial service. This means, of course, that there must be clean politics. Rotten politics in the end | payment to the undersigned. means rotten business and rotten conditions generally. The first requisite in any movement for any species of betterment in this country must be honesty.

'The party has divided its activities into several branches, all of course inter-dependent. The most characteristic, the most essential. and the most original form of work we are undertaking is the work of the Progressive service. We intend to realize the new freedom for which this nation strives, by social re-search, in which information is the keynote; and then by the immediate translation of the knowledge thus acquired into action by a political organization in which service is the watchword. The Progressive service branch of our party activities is devoted to social research, in organized, efficient shape, and is endeavoring to correlate it with the acts of law-making bodies and the needs of the public.

"We are endeavoring to bring to the work of social research the four fundamentals of accuracy,, impartiality, order, and finally a spirit in which fervent, cool-headed zeal. dispassionateness and kindly goodwill are all united. Remember always that we are not engaged merely in investigation without action. We insist that research must preced intelligent action; but we seek to apply our knowledge as rapidly as we gain it; the research and the translation of the research into action go hand in hand.

"Our party is not in power; it is not in office; but it is our duty to formulate public opinion and prepare it so that it shall insist on action along the lines we indicate. We recognize the urgent need of strengthening our party by means of organization, of extension of the machinery, while imperatively necessary, is of use only if treated as a practical means of securing applied realism. The Progressive service is organized because our party, for the first time in the history of any great party in this country, recognizes that the party organization can best be strengthened by continuous, organized party work for definite aims and ideals. Our headquarters, national and state, are to open all the year round, so that men and women (for men and women stand on an absolute equality in our party) can meet to discuss political issues and social and economic issues, to talk openly of party policies, and to plan for putting a little farther in advance the outposts of progress. Our headquarters are to be the meeting places for the scholar, the farmer, the workingman, the business man-and the wives of all of them-and the new type of politician, the politician who is a practical man of high ideals who strives to reduce these high ideals

"I wish to congratulate you men in Pennsylvania upon the fight the Progressive party is making in the legislature to achieve its purpose and thereby justify its existence. All your proposed laws are good; the primary law for instance, and the corrupt practice act. But peculiar importance attaches to the three acts proposed for regulating child labor, for regulating the employment of women, and for creating a minimum wage for both women and children. The underpayment of wage earners is one of the worst evils of our present industrial systemtem, and it is not only an evil in itself but it is at the bottom of the sweatshop problem.

"What I have said applies no less 'to the women's labor act. It is wicked not to regulate the working hours and factory conditions of the women who are compelled to earn their own living. At present the employer who cares for the health and comfort of his workers is at a material disadvantage in competition with other employers who do for their workers no more than is demanded by a bare compliance with the lax provisions of the present law. The task of being both a woman and a wage earner is heavy enough at best and all that we can do to lighten it and to make it safe and healthy should be done

"The Progressive party was foundprimarily to meet the great awakening of conscience which we have seen in the American people during the last few years. Thoughtful men and women have grown to realize that it is impossible that

Pots and pans collect more dirt and grease than any other cooking utensil. The one best way of cleaning them is to use Gold Dust. Gold Dust not only takes off the outer dirt coating, but digs deep after germs and hidden particles, and makes them as spotlessly clean and sanitary as when new.

If you want your pots and pans so bright you can see your face in themyour pots and kettles spotless and germ-proof, use Gold Dust in cleaning. It will do the work, too, in half the time of the ordinary cleanser—and save most of your labor. Gold Dust does the bulk of the work alone—you merely assist it.

Gold Dust is sold in 5c and large packages. Buy the large package and practice economy.

You simply cannot keep house properly without Gold Dust.

The Vengeance of Durand

OR THE TWO PORTRAITS. Vitagraph Two-Reel Feature

PART I

Intense jealousy takes possession of Mathew Durand when his wife's foster-brother, Carl, comes from Paris and she greets him affectionately. Carl has been studying art in Europe and she has not seen him in many years. She had almost despaired of ever seeing him again and he brings back the ties of their early childhood. Durand is a man strong in his likes and dislikes; unreasonably so, and his wife's adopted relationship to Carl does not in any way ameliorate his anger or prejudice. His jealousy developes into an overpowering hatred for Carl, which displays itself in no uncertain manner when Carl paints Mrs. Durand's portrait, which she admires and prizes very highly; for Carl has not only displayed his wonderful genius in the work, but has been inspired by the beauty of his foster-sister, who is a most charming woman. Durand interprets his wife's smile as reproduced in the portrait as an evidence of her admiration for the handsome artist and younger man. In fury, he destroys the portrait and determines to question Carl's right to show any attention to his wife. He meets the artist, insults him and challenges him to a duel. On the eve of encounter, Mrs. Durand pleads with her husand, for the sake of their child, not give way to his passion, endanger his life and bring disgrace

He is obdurate. The duel is arranged. Both men, with their seconds, appear upon the field of honor, take their positions and just as they are about to discharge their pistols at each other, Mrs. Durand rushes between them to stop them. It is too late. Carl not seeing the woman in time, pulls the trigger, the bullet intended for his opponent passes through her body and she falls dead. Carl returns to Paris and Durand is left alone with his little daughter.

His hatred for Carl turns to revenge and he educates his child, Marion, to avenge the death of her mother, filling her young mind with a hatred for Carl, keeping her in ignorance of the real relationship of her mother and the young artist, and the circumstances attending her death.

Ten years later, Durand with his daughter, now a young lady, visit Paris and they meet Carl, who has now become a famous painter. Durand, pointing to Carl, whispers to his daughter, There goes the man who killed your mother.

PART II

This is the beginning of the end, in which Matthew Durand hopes to satisfy the depth of his revenge and hopes to completely humiliate and strike down his victim. He goes with his daughter to Carl's studio and makes arrangements with the artist to paint Miss Durand's portrait. She refuses to reveal her identity and this lends an additional interest to the painting of "the mysterious stranger." Her father reminds her that this is her opportunity to keep the promise which she has made to him in memory of her mother. Left alone, she puts into practice that subtle art that alone belongs to a fascinating woman. She plays upon Carl's susceptibilities to her attractiveness and while he is engaged in painting her picture, she leisusely sits at the piano and plays "The Rosary." He stops his painting, walks over to her side and taking up the theme of the music, their conversation awakens in both a mutual appreciation for each other, which, after subsequent sittings, grows into a strong friendship, until she finds herself in love with the man whom she had promised to betray.

Carl calls to see her father to tell him of his love for his daughter. Durand now makes himself known to Carl, laughs him to scorn and tells his daughter to strike the blow which will make his triumph complete. She refuses to reject Carl and her father, in his wrath, tries to strike him, overturns a lamp, which sets fire to the house, and before they can escape, it is in flames. Carl lifts Marion in his arms, forces his way through the burning building and carries her to safety. Mathew Durand tries to follow them, is caught in the falling timbers and crushed beneath them, a victim of his own retribution.

After Carl's recovery from the injuries he received in Marion's reecue, he and she, in the happiness of their union, recount the memories of the past and Carl tells her, that which was hidden from her by her father, the truth of her mother's death and their adopted relationship.

URANIA LODGE I. O. O. F. HOLD ANNUAL ROLL CALL

Will Remain in City For a Week Be- Large Number of Members Attend Entertainment - Addresses By Frank J. Heinl and Mrs. Myrtie Tandy.

> Urania Lodge No. 243, I. O. O. F. held its annual roll call Thursday evening at 7:30 in the lodge rooms on West State street. Contrary to usual custom the roll call this year was made the occasion of an evening of entertainment, attended by not noly the Odd Fellows but also by their wives and friends. Addresses were made by F. J. Heinl the past grand catriarch of the Grand campment of Illinois and by Myrtle Tandy, warden of the State Rebekah assembly. An interesting program of literary and musical numbers was rendered and delicious refreshments were served of cream, cake and orange frappe. The program was interspersed with selections y Johnson's orchestra.

> After the singing of the ode, the assembly was led in prayer by T. M. Tomlinson. The roll was then called by the chairman, Carl H. Weber, who read letters from some of the absentee members of the lodge. Among them one from W. D. Crowell, one of the lodge's charter members. The members who have died since that last calling of the roll are Joseph Heinl, William Epplinger and W. C. Wright. The present membership of the lodge is approximately 400, to which will be added twenty new members who will take their initiatory degree Monday night.

Belle Long. Address By Mrs. Tandy.

Mrs. Myrtle Tandy in speaking of the Rebekahs and their work told of the ideals and purposes of the order and of some of the benefactions in which the lodge is engaged. She croke of that broad foundation of iniversal brotherhood upon which the Rebekahs as a lodge would build oringing nearer the time when the Golden Rule should be a living reality and the world should be made ourer and better.

"Let us remember that our work s a constant war with selfishness that man should not live unto himself alone; that envy is the mailcious foe of virture; that fraternity unless embodied in the facts of humanity s but an empty name; that our aim should be to gather the sweets and provide against the ills of life, fully remembering that any good we may do must be accomplished now, for we pass this way but once "

In speaking of the lodge's partic plar benefactions, Mrs. Tandy told of he successful work of the orchans home at Lincoln in which 160 children are cared for and of the Old Peoples Home at Mattoon which under the leadership of Mr. and Mrs. North is doing excellent work caring for over a hundred old people of

TAKES ANNUAL EIGHT OARED BOAT RACE BY CLOSE MARGIN

Overcoming Early Lead of Light Blue Crew the Dark Blue Eight Finally Pass Their Rivals and Win Four and One Quarter Mile Race.

Putney, England, March 13.—The dark blue of Oxford today won the annual eight-oared boat race from Cambridge on the Thames. The victory was wrested from the light blues almost on the finishing post. The Cambridge men led for more than four miles of the 414 mile course, and finished less than a quarter length behind their opponents. The winners' time was 20 minutes 53 seconds. As the starting pistol was fired at 4:38, the light blues took the lead, setting a stroke of 36 against the dark blue's 34.

The light blues gained half length during the first three minutes of the race. Their smarter strokes drew the new style centerseated further and further ahead of their rivals until Hammersmith Bridge, the half way point, was reached. Then E. D. Horsfall, the Oxford stroke, called on his men for a spurt and their efforts perceptibly TON OPERATOR KILLED
